## Scan Specifications

As with any project, the more information you can give us the more we will be able to produce your job correctly. When placing a scan order, please have the following information available.

**FILE TYPE:** Our files are generally saved as JPEG and/or TIFF images.

Other file types are available upon request.

**YOUR PLATFORM:** Mac or PC - (PC byte order)

**SCAN USAGE:** What is the scan being used for? This information aids us in directing you to the best type and size of scan needed for your purposes.

High-Rez and Low-Rez scans definitely have their differences. Below is a table outlining the specific characteristics of these two scanning types.
